ABOUT AITS, TIRUPATI

Annamacharya Institute of Technology & Sciences, Tirupati was established in the year 2007 in a 40 acres sprawling green campus with serene atmosphere and congenial learning practices. The institute ensures that students are provided adequate practical orientation in order to succeed in the present day competitive corporate world. The institute is aware of the needs of dynamic global village today which is quest of young, energetic and efficient technocrats and managers. Thus, it is inculcating these requirements in the courses offered in a holistic method.

VISION

"To Promote Excellence in Technical and Management Education."

MISSION

- Strengthen the Learning-Teaching Process for Holistic Development.
- Upgrade Physical Infrastructure to meet the Curriculum needs.
- Enhance Industry-Institute Interactions to acquire Professional Competency.
- Promote Innovation and Research to address Challenges of Society.

ABOUT THE PROGRAMME

Aligning with global education trends, the main thrust of most Higher Education Institutions in India is to move towards Outcome-Based Education (OBE). OBE can be considered as a philosophy of education where there are a certain set of belief and assumptions about teaching and learning. The key principle of OBE, states that all activities (teaching, assessment, etc) are geared towards: not what the teacher is going to teach, but what the outcome of that teaching should be, what the learner is supposed to do and at what standard.

At Annamacharya Institute of Technology and Sciences, Tirupati, faculty and students are in transition with OBE and the faculty are responsible for identifying competencies and learning outcomes and redesigning curriculum including learning activities and assessments in their areas of specialization. In this connection, AITS is planning to organize a two week National Faculty development Programme on "Curriculum Development for Implementation of Outcome Based Teaching-Learning" from 25.11.2019 to 07.12.21019.

The important topics to be discussed in the programme as follows:

- Defining Curriculum Objective and Intended Learning Outcomes (ILO)
- Framework for Designing OBE Courses
- Methodology for Implementing OBE Courses
- OBE course design
- Process of curriculum development
- Understanding the Essence of the Outcome Based Education (OBE)
- Types of Assessment Tools and Methods
- Class handling
- Teaching/Learning Tools
- Creating Learner centric environment
- Active Learning Methods
- OBE/NBA Guidelines
- Learning Taxonomies
- Moodle/MOOCs
