IEC, AITS Tirupati has the privilege to introspect ethical aspects of various committees of the college.

Functions:

AITS, Tirupati, a well established Engineering College, aims to develop ethical and moral values among the people of the institute along with the professional skills, engineering principles and innovative research capabilities. The college is responsible to cultivate higher values of honesty, integrity, respect and humanity among the institutional people. To achieve those, guidelines have been framed to inculcate both professional and social ethics to all the faculty/staff and students in the college.

- Providing excellence in science, engineering and business education at the undergraduate and post-graduate levels.
- Pursuit of knowledge through holistic education in academic and extracurricular activities.
- Developing strong personal values
- Emphasizing theory and practical knowledge.
- Providing meaningful contributions to career and community.
- Preparing students and staff for life and work in an information-rich, technology-driven world.
- Connecting and building partnerships with the corporate sector and non-profit making communities to pursue its educational mission.
- Ensuring the future success of both the college and its stakeholders.
