About the Conference

5th International Conference on “Emerging Trends in Engineering Technology, Science and Management “ and it is going to held on 17th, 18th March, 2023 at AP, India. ICETSM-2023 is being organised by Annamacharya Institute of Technology and Sciences. To provide an opportunity to research scholars, delegates and students to interact and share their knowledge and experience in technology applications. ICETSM-2023 will provide an excellent international forum for sharing knowledge and results in Emerging Trends in Engineering Technology, Science and Management. The aim of the conference is to provide a platform to the researchers and practitioners from both academic as well as industry to meet and share cutting edge development in their fields.

About the College

Annamacharya Institute of Technology & Sciences, [Tirupati Counseling Code (AITT)] was established in the year 2007, with a belief that education can influence and mould young minds. Within a decade, AITS, Tirupati received the prestigious stature of an institution with quality education. Established in a sprawling campus of more than 45 acres of land. Attributing the historical importance, Thalapakanna Annamacharyulu, one of the beloved disciples of Lord Venkateswara who always cherishes to find his berth at his lotus feet. Symbolically, the institute has been christened the name of Annamacharya and is established at the foot of Seven Hills the abode of Lord Venkateswara. It is managed by Annamacharya Educational Trust, headed by Dr. C Gangi Reddy and a group of professionals for whom education is a passion. With an experience of over 20 years in the field of Engineering, Management, Education and Pharmacy, the Trust runs many colleges across Telangana and Andhra Pradesh states. Being a part of Annamacharya Group of Institutions, the institute is committed to impart engineering skills to the students and provide a window for them to explore the opportunities to achieve their goals. Annamacharya Institute of Technology and Sciences, Tirupati endeavours to be the leading centre providing world-class education while incorporating innovative teaching methods for engineering and research.

COMPUTER SCIENCE AND ENGINEERING

- Artificial Intelligence and Data Science
- Machine Learning
- Block Chain Technology
- Networks and Cyber Security
- Internet of Things (IoT)
- Computing (Cloud, Grid, Distributed, Cluster ...)

ELECTRICAL AND ELECTRONICS ENGINEERING

- Power Converters for Renewable Applications
- Multilevel Inverters / Converters
- Electric Traction
- Power Delivery Battery – Paper, Bio, Aluminium-Air, ...

ELECTRONICS AND COMMUNICATION ENGINEERING

- Wireless Sensor Networks
- 5G Networks and IoT
- MEMS and Micro Systems
- VLSI and Embedded Systems
- Signal, Image and Video Processing
- Advanced VLSI Systems

MECHANICAL ENGINEERING

- Innovations in Automobile
- Computational Fluid Dynamics
- Latest trends in Manufacturing Technology
- Green and Sustainable Supply Chain
- Advanced Composite Materials and Structures

CIVIL ENGINEERING

- Material Waste Utilization
- Water Quality and its Importance
- Advanced Construction Materials / Techniques
- Sustainable Infrastructure Development
- Wastewater Management and latest Techniques
- Geotechnical Engineering

HUMANITIES AND BASIC SCIENCES

- Lasers in Optical Fiber Communication
- Nano science & Nanotechnology Applications in society
- Chemistry for Sustainability
- New Developments and Methods in Chemistry Mathematics in Real Life applications

MANAGEMENT STUDIES / MBA

- Business in Global Economy
- Global HR Practices
- Corporate Social Responsibility
- Business Sustainability Management
- Digital Marketing
- Artificial Intelligence and Business
- Technology Based Entrepreneurship

MASTER OF COMPUTER APPLICATIONS

- Advances in Intelligence Systems
- Service Computing
- Quantum Computing
- Data Integration for Data Science
- Visualization & Visual Analytics

POINTS TO AUTHORS
